Examples for Real-time Quote Service Charges Calculation (For Reference Only)

Assume a customer only used "Real-time Quote Service for HK Stocks"

Assume a customer has an Integrated Business Solutions Account with Securities Account:

Case 1

In August, the real-time quote usage of both of your company's Primary Users is 500 in total. They have traded 2 times and your company's total turnover is HKD180,000. Based on turnover and securities holdings, your company will enjoy 600 and 250 additional free real-time quotes respectively. Therefore, together with the basic free entitlement of 500, your company will have 1,350 free real-time quotes (500 + 600 + 250) and does not need to pay any charges.

Case 2

In August, your company's Primary Users have used 2,000 real-time quotes and do not have any trades and securities holdings. Your company's basic free entitled quotes are 500. Therefore, your company needs to pay HKD75, i.e. HKD0.05 x (2,000 quotes - 500 quotes).

Case 3

Assume the securities transactions of the month for the customer:

		1 st - 24 th of Month [c]	During the Month [d]	
(1)	Accumulated Turnover	HKD200,000	HKD201,000	
	Total No. of Transactions	1	2	
	Additional Free Real-time Quotes earned from successful transactions during the period	800	800	
	No. of Free Real-time Quotes that can be Accumulated [d] - [c]			0 (A)
(2)	Basic Free Real-time Quotes	500		
	Total Free Real-time Quotes of the Month	500 + 800 = 1,300		
	Real-time Quotes Used of the Month	1,000		
	No. of Unused Free Real-time Quotes of the Month			300 (B)
The No. of Free Real-time Quotes that can be Carried Forward to the Next Month (the lower of A and B)				0

Based on the trading activities above, the customer can enjoy more free real-time quotes by using the total trading turnover to determine the number of additional free real time quotes earned from his/her successful transactions for the month. During the month, the customer will enjoy 800 additional free real-time quotes. The number of unused free real-time quotes that can be carried forward to the next month will be the lower of (A) and (B):

(A) Total additional free real-time quotes earned from successful buy/sell transaction during in the month LESS the total additional free real-time quotes earned from successful buy/sell transaction in the first 24 calendar days of the month; [d] - [c], i.e. 800 - 800 = 0

(B) The number of unused free real-time quotes of the month; i.e. 1,300 - 1,000 = 300

Compare (A) the number of additional free real-time quotes that can be accumulated with (B) the number of unused free real-time quotes (whichever is lower), there will be no additional free real-time quote that can be carried forward to the immediately following month.

Case 4

Assume the securities transactions of the month for the customer:

	Total No. of Transactions	4	5	
	Additional Free Real-time Quotes earned from successful transactions during the period	800	1,000	
	No. of Free Real-time Quotes that can be Accumulated [d] - [c]			200 (A)
(2)	Basic Free Real-time Quotes	500		
	Total Free Real-time Quotes of the Month	500 + 1,000 = 1,500		
	Real-time Quotes Used of the Month	1,400		
	No. of Unused Free Real-time Quotes of the Month			100 (B)
The No. of Free Real-time Quotes that can be Carried Forward to the Next Month (the lower of A and B)				100

Based on the trading activities above, the customer can enjoy more free real-time quotes by using the total number of transactions to determine the number of additional free real time quotes earned from his/her successful transactions for the month. During the month, the customer will enjoy 1,000 additional free real-time quotes. The number of unused free real-time quotes that can be carried forward to the next month will be the lower of (A) and (B):

(A) Total additional free real-time quotes earned from successful buy/sell transaction during in the month LESS the total additional free real-time quotes earned from successful buy/sell transaction in the first 24 calendar days of the month; [d] - [c], i.e. 1,000 - 800 = 200

(B) The number of unused free real-time quotes of the month; i.e. 1,500 - 1,400 = 100

Compare (A) the number of additional free real-time quotes that can be accumulated with (B) the number of unused free real-time quotes (whichever is lower), there will be 100 additional free real-time quote that can be carried forward to the immediately following month.

Case 5

In August, the real-time quote usage of your company is 500. Your company has traded 2 times and the turnover separately is HKD50,000 and USD15,000. For settlement amount in foreign currency, we will use Bank's month end exchange rate to convert the settlement amount into HKD equivalent to calculate. In this case, assume the month end USD exchange rate is 7.78, thus the total turnover is HKD50,000 + USD15,000*7.78 = HKD166,700, you will enjoy 600 additional free real-time quotes. Therefore, together with the basic free entitlement of 500, your company will have 1,100 free real-time quotes (500 + 600) and does not need to pay any charges.
